Rigorous Continuous Internal Evaluation process is implemented across all departments, and involvement of more ICT Tools in curriculum, including computational methods of problem solving in various science departments, is in operation. More robust waste management system and initiatives of green campus to be implemented.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The curriculum is set by University of GourBanga. The institute has designed a well planned master routine keeping into account the prescribed format of class distribution required for effective curriculum delivery. The ratio of honours and general courses has been managed according to the requirement of UGC curriculum. The documentation process of effective delivery of curriculum is done through submission of Lesson plans at the beginning of the academic year. From current academic session, University of GourBanga has adopted CBCS (Choice Based Credit System) curriculum for all UG courses, and Balurghat College (as an affiliated college to University of GourBanga) also has adopted the CBCS system. The master routine has been designed in such a way that simultaneous 3 yr (1+1+1) system and CBCS system can be in operations. Duration of classes is adjusted to 1 hour and laboratory classes are also adjusted keeping in mind the minimum required credit hours for each laboratory courses. The standing committee on academic affairs meet regularly to formulate strategies for effective curriculum delivery, and action taken report is well documented in minutes of these meetings. Internal assessment would carry direct weightage in

total marks in CBCS system for each paper, so internal assessment methods are given more importance and has been restructured .Student feedback system ensures the quality of the effectiveness in curriculum delivery, at the end of the academic year. For CBCS system, feedbacks from the students are collected at the end of each semester, and sometimes even more frequently, at the departmental level. Tutorial classes are also held during the academic year where discussions are made with the students about the effectiveness of curriculum delivery. Regularized class tests and laboratory tests (wherever applicable) has ensured proper delivery of the curriculum and preparedness of the students during academic session. ICT enabled teaching learning process has enhanced the quality and effectiveness of curriculum delivery. Use of various software, educational websites, and smart class room has enhanced the quality of curriculum content delivery .Proper and updated instruments as per requirement of the CBCS curriculum are provided to the students. Documentation process for effective curriculum delivery is mainly reflected in student feedback. Alongside student feedback, other modes of effective curriculum delivery is documented as completion of class loads as per routine, and well documented by IQAC.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Nil

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Feedback obtained through the students at the departmental level were analyzed at the departmental meetings by the faculty members. Students are overall very satisfied with the curriculum delivery as most of the students agree to the fact that 90-100 syllabus is being covered in class. Most of the students also are very happy with the transparency of the internal assessment process and feel enough evaluation procedures are undertaken during the academic session to properly judge the progress of a student. Though based on the students feedback, some of the departments increased the amount of class tests and home assignments during the academic year, and plan to formulate a more robust internal assessment methods. IQAC and various departments of the college carried out awareness programme for students satisfaction survey required in NAAC Accreditation process and IQAC conducted an internal survey among the students regarding various aspects involving overall development of the college. Based on the feedback received from more than 1500 students, college authority revamped the infrastructure at the class rooms, boys and girls common room, improved the drinking facility. Based on the feedback by the students, waste management system of the campus has been improved, and washrooms of the college were kept clean on regular basis. Feedback of the students were analyzed in meetings of various standing committees of the college. One such committee is Library advisory committee, that, on the basis of feedback, enhanced the digitization process of the books with the use of KOHA software. INFLIBNET registration is to be renewed, which will provide more e-resources to the students. Feedback obtained from the teachers and alumni members are discussed in the governing body meeting and the facilities at the teachers common room has been enhanced. Based on feedback from the teachers, more wifi connection has been provided in the campus so that all faculty members and departments can avail internet facility. Printers are also given to various departments so that all departments can avail printing facility on shared basis. Alumni association members provided feedback and based on that involvement of more alumni members are sought and financial help from more alumni members are sought regarding development of the college. Feedback from

Employers are also analyzed at the governing body, and based on that recruitment of staff members to be enhanced in future, along with development in infrastructure in the college campus.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Balurghat College was due for NAAC visit on 19-20 March 2020 (which was postponed due to Covid19 Pandemic). During the preparatory phase for NAAC PTV, a number of practices were in place which emphasized decentralization and participative management. IQAC of Balurghat College was given the responsibility for preparation of SSR, and submission of SSR, along with IIQA,

and various fees necessary for SSR submission. IQAC members were also in charge for conducting the awareness programme for students satisfaction survey, and answering the questions required by DVV during the SSR submission and validation process. Another example of participative management would be restructuring and improvement in Central Library, Balurghat College. Library Advisory Committee along with Librarians of Balurghat College reorganized the arrangements of Balurghat College library, enhanced the internet facility, strengthened the LMS via KOHA 18.11 software, renewed the registration in INFLIBNET, to name a few. This active participation of Library advisory committee and librarians has ensured the increased quality of book lending process and several library related matters, which in turn benefits Balurghat College and its teaching learning process as a whole.

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Industry Interaction / Collaboration	Planning has been made by the college to enhance collaboration with local industries and also visit some of the local industries. Dept of Commerce has planned to follow-up on their visit to local rice mill .
Library, ICT and Physical Infrastructure / Instrumentation	Membership in INFLIBNET is renewed and is in operation for enhancing the e-resource content of the library. Installation of KOHA software for digitization of the library is completed, and almost 50 of 32000 books in the library are digitally entered in the system. ICT enabled smart classrooms and audio-visual lectures involving more newly purchased overhead projectors enhanced quality of teaching learning. E-LEARNING portal of Balurghat college made study materials available electronically to students. Physical infrastructure has also been enhanced with new furnitures, green-boards, sports equipments etc. New instruments are purchased in laboratories following CBCS syllabus.
Examination and Evaluation	The Undergraduate section is governed by University of Gourbanga, so the college has to follow the pattern of Examination set by UGB strictly. However, the college has designed a various number of internal evaluation processes including continuous evaluation through class tests and laboratory tests wherever applicable. Surprise class tests are also introduced in the curriculum, which tests the preparedness of the student

at any given time during the academic session. Evaluation is also done based on projects and field trips, and through assignments provided to the students in timely manner during the academic session. Timely grievance redressal related to evaluation process and doubt-clearing classes after evaluation process also enhances effectiveness of examination and evaluation.

Curriculum Development

Under Graduate section of the college is governed by the curriculum of University of Gourbanga, so there is not much scope for the college to develop the curriculum on their own. Despite the constraints regarding curriculum development, The college introduces innovative ideas within the curriculum to make it more effective regarding content delivery. This includes field excursions, local industry visit and project works, reverse classrooms etc., which enhances the cognitive ability of the students. The curriculum of the PG courses are designed by the College as it has the autonomy to do so.

Teaching and Learning

Teaching learning process has been improved to a great extent by adopting student centric method of teaching which involves mock teaching by the students. Increased number of computers, adoption of more ICT tools and audiovisual techniques improve teaching learning process as well. Regularised class tests and lab tests, use of museum by history students, wifi enabled college campus also enhanced the overall teaching learning process. A strong feedback system and students satisfaction survey enables the college authority to take proper steps for improvement of teaching learning process in the college.

Research and Development

IQAC successfully encouraged faculty members to participate in research activities and seminar/conferences. Career counselling programme was organised to enhance employability among students. Various departments adopted hands-on approach for teaching, and small research-based projects are carried out by students to gain first-hand research experience. Faculty members were encouraged to complete PhD, and 3-4 faculty members are on the

	<p>verge of completion of PhD degree.</p> <p>Modern equipments like UV Spectrophotometer is purchased by Dept of Chemistry, which will enable the faculty members to carry out research projects.</p>
Human Resource Management	<p>College authority along with IQAC organised workshops and programmes for faculty members regarding NAAC accreditation process. Also all the faculty and staff members were made part of various standing committees like Hostel committee, routine committee, standing committee on academic affairs, examination committee, admission committee, library advisory committee, infrastructure management committee, sports committee to name a few. Regular meetings and action taken plans executed via college authority ensured proper functioning of these committees and development of the college regarding academics and students related affairs. Specific duty were assigned to non teaching staff members regarding admission of students and registration for examinations.</p>
Admission of Students	<p>Admission of students has been done completely via online mode and through e-governance. A separate admission portal at http://balurghatcollegeadmission.com/ displayed all the information regarding admission, seat available, seats filled up and admission fees. Automated confirmation messages regarding admission, verification was sent to the phone numbers of the candidate. Subject wise roll number code for students admitted to CBCS system was generated for the first time in college</p>

6.2.2 – Implementation of e-governance in areas of operations:

E-governance area	Details
Planning and Development	Website of Balurghat College been improved and organized. E-tenders were sought by college authority in case of many purchases.
Administration	Tally software has been used in the college administration
Finance and Accounts	Tally software to maintain college accounts. Receipt of salary generated through HRMS portal sent via e-mail to all employees. Implementation of new pay commission and the pay-structure details distributed among faculty

	members via e-governance mode
Student Admission and Support	Student admission completely done through online mode and e-governance. Online payment of fees and generation of receipt. Specially coded roll numbers for students in CBCS programme. Student grievances regarding online admission was resolved via dedicated email ID.
Examination	Final examination was taken in Online mode due to COVID19 pandemic. Complete e-governance mode applied in examination. University of GOURGANGA had set-up a dedicated portal for question download, answer script upload by students, and separate password protected portal for correction of answer scripts by faculty members. Balurghat College also generated dedicated email address for submission of answer scripts by students, and receipt of answer scripts via whatsapp.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best practices 1: Environmental Consciousness and Sustainability: College is located in a sprawling green campus. Most part of the land is empty and have opportunities for enhancing the Environmental Consciousness and Sustainability.

The following works have been done in the campus which helps in the Environmental Consciousness and Sustainability: • Plantation of trees on the large scale inside the college campus time to time. Wi-Fi internet facility.

Encourage to students and teachers for save electricity, save papers, save waters, use of dust bins etc. • Environmental awareness program (single use of plastics awareness) runs by NSS unit of the college. •Celebration of international yoga day and arranging of Yoga camp inside the campus. • Water analysis of different villages around the college done by the department of chemistry. • Availability of Sports ground, large cricket ground, football ground.

Best practices 2: Gender Equity: Since, this college is a coeducational and every year large numbers of girls' student take admission in different courses in the college. The college provides free ship half free ship to the students of lower income family. College also helps girl students to get different type to scholarship (Kanyashree Swami Vivekananda Scholarship etc.)provided by the Government of West Bengal. College also take care for arranging stipend for the students belonging SC, ST minority section. The college has a large girls' hostel a boys' hostel and separate common room for girls and boys. Sports in charge provides indoor games in common rooms. A gender sensitization programmes are also seen in the lectures, sports competition, and programs conducted by the NCC and NSS units of this college.

Girl students participate with full enthusiasm in each and every unit (academic as well as extracurricular activities) of the college. Best Practice 3. Student Card and Mentoring system: Objectives of the Practice 1. To create an informal informative association between mentor and mentee 2. To provide better guidance and support to the students' needs 3. To provide teachers to build the overall personality of the student, who can contribute to nation building activities 4.

The Context considering the feedback received from mentees and their mentors, changes are made to the format wherein questions are more direct. Questions are asked across the four semester 3rd Year students as per their relevance to the students need for that semester or year. An attempt is made to get quantitative data for some questions, which could be used to make more meaningful decisions in future for student community at large. Formal meetings with individual students or group of 48 students in a year is arranged by the course coordinator (CC), wherein the students mention their academic background, interests and their aspirations and goals, family back ground and expectations from the college. In the next semester, another meeting with students is planned to know their experiences, evaluate their performance and ask suggestions for improving college facilities and functioning. The mentor looks at the attendance and performance of individual student and suitable measures are taken. Parents are intimated about their wards performance and separate parent meetings are held in chronic cases to report. Advance learners/good

performers are advised to join Assured Career Progression (ACP), take up projects/internships, while the weak academic performers are instructed to participate in remedial coaching. Students are also encouraged to participate in literary, fine arts, performing arts and sports depending on their interest and talent. Students identified with personal difficulties and low self-esteem are guided to the counselling cell of the college. The outcomes of this process can be evaluated both objectively and subjectively. For most students the academic progression has seen an upward trajectory suggesting better performance with every year. Examples of students can be cited wherein the progress has been phenomenal. Students grow in their values and better understanding of the subjects. Quantitative data was useful for some questions and the responses analyzed will help students' issues to some extent. 5. Problems Encountered and Resources Required Time to undertake this activity is an important factor for both the mentor and mentee to make the best of this process. With fixed meeting schedules every semester this factor is taken care but the number of students (approx. 4600) in large classes becomes a difficult task for mentor to have a strong hold over the students' performance per se. To collate quantitative data for questions is also a tedious task for the mentors and better ways to accommodate the same has to be reconsidered. Best practice 4: Green initiatives 1. Title of the Practice: Green initiatives to inculcate green consciousness in students and plan actions to save our environment and to be one with Nature. 2. Objectives of the Practice "Save the nature to save the future, make safer environment for better tomorrow" We plan various activities with to perpetuate green consciousness in our students, with a firm belief that these activities will enhance their awareness and influence their independent thinking abilities to make simple practical attentions in their personal and professional lives that can have a long-term impact on improving our environment. Institute has a compost waste where all wet waste from canteen is converted in compost and used in gardening. These initiatives demonstrate institutes commitment for environment sustainability and inspire students to take up responsible steps for better environment. We plan activities and awareness session about various dimensions such as global warming, global plastic problems, increasing generation of electronic waste, effect of unrestricted use of electricity on environment so that students can take informed steps in their individual capacity and alter their lifestyle to respect nature and not take it for granted.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

1. The performance of the institution in one area distinctive to its vision: Since, this college is a coeducational and situated in the rural area. There are 16 departments through honours programmes (B.A., B.Sc. and B. Com) and 4 General courses in Sociology, Mass Communication, Food Nutrition, Physical Education and three Post- graduate Courses with autonomy in Bengali, History Sanskrit. Every year large number of rural students (Girls and Boys) take admission in different courses of the college. In keeping with the motto of the college, empowerment through education, teaching and non-teaching staff of Balurghat College continuously strive to encourage and emphasise on the education of its students. The college is situated in the rural belt and many of the students come from economically weak and socially backward section of the society, many of them being first generation learners. The students are

encouraged to participate in model presentations, Youth Parliaments. The students are mentored and parent teacher meetings are held in order to appraise the guardians about the progress of their wards. The college arranges 50 percent waiver of the college tuition fees for financially backward students. The Kanyasri Prokolpo of the State Government is also implemented successfully since 2014-2015 for encouraging the girl students to continue their formal education. Around 500 students on an average per year have been enjoying the benefits of Kanyasri Prokolpo for the past four years.2. Green initiatives to inculcate green consciousness in students and plan actions to save our environment and to be one with Nature. The Practice "Save the nature to save the future, make safer environment for better tomorrow" We plan various activities with to perpetuate green consciousness in our students, with a firm belief that these activities will enhance their awareness and influence their independent thinking abilities to make simple practical attentions in their personal and professional lives that can have a long-term impact on improving our environment. Institute has a compost waste where all wet waste from canteen is converted in compost and used in gardening. These initiatives demonstrate institutes commitment for environment sustainability and inspire students to take up responsible steps for better environment.
